UK-Russia side event at the International Scientific Conference “Marine Research and Education-2018”: Interdisciplinary marine research in the Arctic and Northern Atlantic Oceans

1. Name:
2. Institution:
3. Career stage:
4. Please provide an overview of your current scientific research (*max 150 words*)

The Pertsov White Sea Biological Station (**WSBS**) of Lomonosov Moscow State University is celebrating its 80th Anniversary in 2018. It is located on Kandalaksha Bay of the White Sea, near the polar circle and is an ideal environment to study various aspects of northern marine ecosystems. It is equipped with a variety of lab facilities including molecular biology lab and geophysical lab, aquariums, boats and diving equipment (more information at <http://en.wsbs-msu.ru/>).

5. Provide a brief outline for a project (research, education or outreach) you would like to conduct or participate at the White Sea Biological Research Station (*max 250 words*)

6. Have you had any previous experience on marine stations? Please provide details if you had or leave this box empty (max 100 words)
